No collection, no fee. Our success rate for collection is second to none and because of this, we make no charge for our pre-legal recovery service if we do not collect.

With successful recoveries we use our legal expertise to collect your debt and recover costs from the debtor too.

Prevention is better than cure

We can implement simple credit control measures to minimise bad debt problems before they occur. We advise on contracts and business terms to ensure that they are easier to enforce and more effective.

Easing the court process

We are focused on recovering your debts quickly and without the need for court process.

If court action becomes necessary, we always discuss the procedures and charges with you. In successful actions, we will try to recover your costs from the debtor.

Managing disputed claims

In cases where a claim is disputed, we will review the case with you and provide a cost assessment to ensure you make an appropriate decision for your business.
